The board of directors of Unipol Gruppo S.p.A., which met yesterday under the chairmanship of Carlo Cimbri, approved the draft financial statements and the integrated consolidated financial statements for 2023, confirming the preliminary results reported on 16 February last, in addition to the proposed merger of UnipolSai Assicurazioni, Unipol Finance, UnipolPart I and Unipol Investment into Unipol Gruppo.

CONSOLIDATED ECONOMIC-FINANCIAL RESULTS

The new accounting standards for the insurance industry were applied for the first time in 2023; they made significant changes to the recognition of insurance contracts (IFRS 17) and financial instruments (IFRS 9), replacing IFRS 4 and IAS 39 that had been previously in effect. Taking effect

⁵Compared to 31 December 2019.

⁶ Compared to 30 September 2022.

from 1 January 2023, the new accounting standards were also applied retroactively to the figures reported for 2022 to facilitate comparison on a like-for-like basis only⁷.

Gruppo Unipol recorded a consolidated net profit of €1,331m for FY 2023, which includes a positive amount of €267m of badwill⁸, recorded using the equity method to reflect the first-time consolidation of the stake in Banca Popolare di Sondrio (following the acquisition by Unipol Gruppo of 10.2% in the Bank increasing the overall stake of the Group to 19.7%). The net profit, excluding said extraordinary item, amounts to €1,064m.

The Group recorded a consolidated net profit of €866m in 2022, calculated using the accounting standards previously in effect and which reflected extraordinary components with a positive balance of approximately €92m⁹ (with the normalised result amounting to €774m⁹). The definitive figure for 2022 which was recalculated using the new accounting standards would have amounted to €675m (normalised result of €584m⁹).

Direct Insurance Income, including reinsurance ceded, stood at €15,060m as at 31 December 2023, up (+10.4%) on the amount of €13,645m at 31 December 2022.

Non-Life Business

There was growth of 4.2% in direct **Non-Life** income to €8,651m, compared to the figure of €8,304m at 31 December 2022. This result included contributions from UnipolSai Assicurazioni which recorded non-life premiums of €6,952m (+1.0%) and the other main Group companies including in particular UniSalute which recorded premiums of €796m (+38.7%), Linear with total premiums of €216m (+12.2%) and Arca Assicurazioni which recorded premiums of €272m (+10.9%).

Good performances were posted by the MV business, up 3.0% on the previous year with premiums of €4,006m, and the Non-MV business with premiums of €4,645m and growth of 5.2% compared to 31 December 2022.

All the Ecosystem lines of business turned in positive performances.

⁷Starting from 2023, to provide a clearer picture of the actual contribution to the consolidated results, the income statement and balance sheet results previously attributed to the property business were allocated to the life business if they referred to activities where the returns influence the benefits to disburse to insurance investment policy subscribers and to the holdings and other businesses for the remaining portion.

⁸The total amount of badwill recognised following the first-time consolidation using the equity method of the subsidiary Banca Popolare di Sondrio, of €267m, is allocated to the non-life business for €86m, to the life business for €43m, and to holdings and other businesses for €138m.

⁹ The 2022 results were negatively influenced by the allocation of a solidarity fund for employees, but benefitted from the effects of the increase from 18.9% to 19.9% of the overall stake held by Unipol in BPER and the badwill recognised by BPER following acquisition of Banca Carige. The impact of said extraordinary components on the pre-tax result of said economic components was a positive amount of €31m, broken down as follows among the businesses: Non-Life, a loss of €91m, Life, a loss of €20m, Holding and Other Businesses €142m.

The **Mobility Ecosystem** recorded insurance income of €4,365m (+3.0%), and Unipol*Rental* posted further growth with a stock of 136,000 contracts compared to 78,000 at 2022 year-end. The **Welfare Ecosystem** reported insurance income of €1,772m in 2023 (+7.4%), with a significant increase in the health division (+13.5%), while the **Property Ecosystem** posted growth of 4.0% with insurance income of €2,514m.

The **combined ratio**¹⁰ amounted to 98.2% at 31 December 2023 compared to 98.6% at 30 September 2023. The loss ratio stood at 71.5% (compared to 71.9% for the first nine months of 2023), while the expense ratio stood at 26.7% (in line with the figure of 26.7% at 30 September 2023). Exceptional weather events relating to the flooding that occurred in Emilia Romagna in May and the wind and hail storms that hit Northern Italy at the end of July influenced the 2023 loss ratio.

Life Business

In the **Life Business**, the Group reported direct income of €6,409m, substantially up (20.0%) on the figure of €5,341m recorded in 2022 despite ongoing market difficulties due to a general increase in interest rates and the uncertainties created by the Eurovita crisis, resolved in part due to efforts by Gruppo Unipol. The sales network concentrated on traditional and hybrid products with a view towards optimising the net flows of segregated accounts, enabling it to record positive net income.

The income figure in the bancassurance channel was particularly significant, with Arca Vita, along with its subsidiary Arca Vita International, posting a 34.8% increase over 2022 (€2,554m). UnipolSai also experienced growth with direct income of €3,811m (+12.3% over 2022), thanks in part to the acquisition of new pension fund contracts.

Holdings and Other Businesses

In 2023, the business benefitted from a higher contribution from consolidation of the bank investments whose performance recorded net growth compared to 2022.

The Gruppo UNA in particular ended 2023 with revenue of €208m, up 40% from the 2022 figure. EBITDA also recorded robust growth in 2023 at €32.7m, along with net profit, amounting to €25m compared to a figure of approximately €1m the previous year.

Financial Management

The gross return on the Group's **Financial Insurance Investment Portfolio** recorded a return of 3.8% on invested assets, of which 3.4% from coupons and dividends and 0.4% from gains and valuations. The figure at 31 December 2022, calculated with the accounting standard IAS 39 which was in effect at the time, amounted to 3.1%, of which 3.3% linked to the coupon and dividend component.

¹⁰ Ratio that measures the balance of the overall non-life technical management. With introduction of the new income statement presentation following the entry into effect of accounting standard IFRS 17, the ratio has been calculated using the following formula since 2023: 1 - (insurance services result/insurance contract revenue).

Financial investment management benefitted from the increased profitability of the new investments which focus on securities with high levels of creditworthiness, along with improved diversification and overall risk-return profiles.

Balance Sheet

As at 31 December 2023, the **Consolidated Shareholders' Equity** amounted to €9,799m (shareholders' equity was €8,578m at 31 December 2022, restated in accordance with the accounting standards currently in effect), of which €7,967m attributable to the Group. The increase reflected the effects of both a positive result for the period and the recovery of financial markets.

The Group **Solvency** ratio at 31 December 2023 amounts to 215% which is up on the figure at 31 December 2022, while taking account of the expected dividends and the consolidation of Banca Popolare di Sondrio.

Business Outlook

In accordance with the information currently available, it can be confirmed - in the absence of any unforeseeable events as things stand including a downturn in the operating environment - that consolidated income from operating activities for the current year is in line with the targets established in the 2022-2024 Strategic Plan.

CONTRIBUTION TO SUSTAINABLE DEVELOPMENT

In 2023, the Group **distributed €14.9bn in value**, up on the 2022 figure (€12.5bn), including €9.9bn to insurance customers and reinsurers €5.0bn to the other stakeholders (shareholders, agents and other brokers, suppliers, the public authorities, lenders, employees and the community).

Due to increasing demand by the public for support in social and health matters and pensions, confirming its role as a key player in the process of integrating public and private welfare, Unipol covered 8.2 million people with its Welfare insurance (Life and Health) in the period, up on the figure of 7.8 million people in 2022, thanks in part to development of a line of products designed to cover the needs of the policyholders for their entire lives.

Unipol also contributed to the resilience of the Italian economy, supporting **households** and increasing awareness of insurance cover for the **small and medium-sized enterprises** that form the backbone of the Italian manufacturing industry, subscribing to €787m in policies (+3.7% over the figure of €759m in 2022).

Unipol has a division dedicated to the management of alternative investments which are chosen through specific due diligence processes and which entail making both traditional financial analyses

and in-depth analyses of social-environmental and governance criteria along with a map of the sustainability risks that could have a reputational impact.

Investments made with meet these characteristics increased 24.1% in 2023, and those combatting climate change, protection of the environment and land, sea and freshwater ecosystems rose by 19.6%

Investments supporting the 2030 Agenda amount to €1.4bn which already exceeds the target set under the 2022-2024 Strategic Plan (€1.3bn invested by 2024 year-end).

The Group guaranteed 360° support for more efficient, safe and sustainable mobility: **about 38 billion km were travelled by cars covered by telecommunication-based policies.** The use of telecommunications is essential to encourage safer driving with lower environmental impact.

Unipol Gruppo Climate Strategy

In June 2023, the board of directors adopted an updated version of the Unipol Gruppo strategy on climate change approved in 2022 to specify how it could tackle climate-related risks and avail of the opportunities, defining new medium-long term targets to reduce its greenhouse gas emissions in support of its decarbonisation process.

With regard to the management and development of real estate, by 2030⁵ the Group has commited to a 46.2% reduction in Scope 1 and 2⁴ emissions linked to the consumption of electricity, gas and other energy sources for all the buildings that the Group controls directly, from the core insurance company offices to those of the various companies, the headquarters of the Gruppo UNA business and foreign offices, with the intention of limiting the increase in the average global temperature to 1.5°C.

There was an overall **reduction in CO₂ emissions** (calculated using the market-based method¹¹) **of 11%** in 2023 as evinced by monitoring the Unipol Gruppo's environmental performance, with an equivalent value of $14,492 \text{ t CO}_2$ (equivalent value of $16,280 \text{ t CO}_2$ in 2022). This figure corresponds to a **54.9% reduction from the figure at 31 December 2019** which had been adopted as the baseline for definition of the 2030 targets.

By 2030⁶, the Group undertakes to reduce the carbon emission intensity¹² of its portfolio of directly managed listed equities and public traded corporate bonds by 50% compared to 30 September 2022. The commitment to reduce the carbon emission intensity relates to Scope 1 and 2 emissions of

 $^{^{11}}$ The market-based method considers the electricity emissions that an organisation intentionally chose (or not to choose) using contractual means. This method takes account of the purchase of energy from renewable sources: energy consumption connected to energy from renewable sources (if certified) will generate CO_2 emissions of 0.

the companies in the scope of consolidation. In 2023, the emissions calculated according to the Carbon to Value Invested - C/V metric were **down 21.2%** compared to 2022.

Within the scope of the 2022-2024 Strategic Plan, the Group set a **target of 30% by 2024** for the percentage of its products that would have social and environmental value. These products represented 27.6% of direct income by 2023 year end.

Green Bond Income

With reference to the €1bn Green Bond (regarding the issue of bond loans in 2020 with maturity in 2030), as at 31 December 2023, income allocated to refinancing or financing projects that meet criteria defined in the **Green Bond Framework** amounted to €979.3m. The allocation related to projects in all the admissible categories: Renewable Energy (€315.6m, 32.2% of the allocated amount), Clean Transportation (€299.3m, 30.6%), Green Buildings (€267.5m, 27.3%), Energy Efficiency (€55.7m, 5.7%) and Forestry (€41.2m, 4.2%).

Initiatives for the flooding in Emilia-Romagna and Tuscany

The Group launched a well-structured, integrated plan of action to help the people affected by flooding in Emilia-Romagna in May and in Tuscany in November to support its customers and agencies resident in these areas.

Contributions to the Community

Unipol's commitment to support and work with the territories where it operates involves contributing towards the development and realisation of projects that foster sport (an opportunity to empower young people in particular), of social utility and that support scientific research in addition to significant actions of solidarity to help communities. In 2023 the Group **contributed €17,0m to the community** (+11% compared to the previous year)

Staff training for employees, agents and business associates

GRUPPO UNIPOL RESTRUCTURING PLAN

Further to the announcements made to the market on 16 February 2024, the board of directors of Unipol Gruppo, today, also:

- a) approved (i) a proposed merger (the "Proposed Merger") into Unipol Gruppo of UnipolSai Assicurazioni, and Unipol Finance S.r.l., UnipolPart I S.p.A. and Unipol Investment S.p.A., with the latter three companies entirely held by Unipol Gruppo that hold shares in UnipolSai (the "Interim Holdings") (the "Merger"), and (ii) the directors report drawn up in accordance with article 2501quinquies of the Civil Code and article 70 of the Issuers' Regulation (the "Explanatory Report"); and
- b) confirmed the share exchange ratio relating to the Merger of 3 Unipol shares for every 10 UnipolSai shares (the "Share Exchange Ratio") as decided on the date of the framework agreement signed between the parties on 16 February 2024 on the basis of the draft financial statements for the year ending on 31 December 2023 of Unipol Gruppo and UnipolSai which constitute the reference financial positions in accordance with article 2501-quater of the Civil Code.

More specifically, the board of directors of Unipol Gruppo - subject to review by the Unipol committee for related party transactions, with the support of its independent financial advisor - confirmed the fairness and validity of the assumptions and conclusions reached on 16 February 2024 regarding the fairness of the Share Exchange Ratio.

In order to serve the allocation of the shares being exchanged, Unipol Gruppo will increase its share capital for a maximum of €300,782,432.48 by issuing a maximum of 125,692,617 new ordinary shares. This maximum amount was calculated by assuming that at the date the Merger takes effect, Unipol has not acquired, within the scope of the voluntary public tender offer announced by Unipol in accordance with articles 102 et seq. of the Consolidated Law on Finance on 16 February 2024 (the "Offer")¹⁴, any UnipolSai shares, and that all the UnipolSai shares serving the compensation plans based on financial instruments in place have been allocated to management.

Once the Offer has been concluded, if Unipol acquires further UnipolSai shares, the capital increase will be for a lower amount than that indicated above. If Unipol should hold, directly or indirectly, the entire share capital UnipolSai, no Unipol shares will be issued to serve the Merger.

The definitive amount of the share capital will therefore be indicated in the Merger agreement once the exact amount of the share increase serving the Merger has been established.

The articles of association of Unipol Gruppo will be amended to take account of the Merger to provide, inter alia: (i) the new company name of "Unipol Assicurazioni S.p.A." which will be taken on by the company resulting from the Merger, (ii) the change in the corporate purpose of Unipol Gruppo in order to take account of the business activities of UnipolSai, and (iii) the incorporation of the new provisions set out in Ministerial Decree no. 88/2022 ("Regulation on the suitability requirements and criteria for carrying out the duties of the corporate officers and those who carry out key functions in accordance with article 76 of the Insurance Code pursuant to Legislative Decree no. 209 of 7 September 2005").

As already announced to the market on 16 February 2024, the holders of Unipol Gruppo ordinary shares who do not agree with the Proposed Merger and therefore, to the amendment of the corporate purpose, will have the right to withdraw in accordance with article 2437, paragraph 1, letter a) of the Civil Code (the "Right of Withdrawal").

¹⁴For further information, please refer to the press release issued by Unipol on 16 February 2024 in accordance with article 102, paragraph 1 of the Consolidated Law on Finance, and article 37 of the Issuers' Regulation and published on the Unipol website (www.unipol.it), and on the eMarket Storage mechanism (www.emarketstorage.com), in addition to the other documentation that Unipol Gruppo will publish in relation to the Offer pursuant to the applicable laws and regulations.

Approval of the Proposed Merger shall not give rise to any grounds for withdrawal for UnipolSai shareholders as none of the conditions set out under article 2437 of the Civil Code or other legal provisions apply.

On the basis of the provisions of Annex 3B to the Issuers' Regulation, the Merger amounts to a significant operation in accordance with article 70, paragraph 6 of the Issuers' Regulation. The information document required under said regulatory provision, also containing the pro-forma financial information of the company resulting from the Merger, shall be made public using the methods and within the scope of the terms provided for under applicable law.

The information document pursuant to article 70, paragraph 6 of the Issuers' Regulation shall not be published if UnipolSai, once the Offer has been concluded, is delisted in accordance with prevailing laws.

For further information regarding the operation, please refer to the press release published on 16 February 2024 by Unipol Gruppo on the website www.unipol.it.
